

Burbank Arts in Public Places

The City of Burbank's Art in Public Places Program was founded on the belief that the visual environment plays an essential role in creating the atmosphere for an enterprise culture and civic confidence, vital to growth and improvement. This program has made it possible for recognized artists to enhance public spaces throughout the City with sculpture, murals, and environs. The art pieces have become emblematic to Burbank's commitment to the enrichment of the City's cultural and educational identity.
