FEE INCENTIVES

THE ESCONDIDO BUSINESS ENHANCEMENT ZONE

On May 24, 2006, the City Council adopted Ordinance 2006-12, and Resolution 2006-56 modifying the existing Business Enhancement Zone (BEZ). The ability to request incentives for development was expanded to all commercial and industrial zoned properties in the City of Escondido. In order to be considered for incentives, the development must meet one or more of the Public Benefit Criteria in the associated Council policy. Generally, the BEZ applies to new construction projects.

Contact the Planning Division at 760-839-4671 or the Economic Development Division at 760-839-4563 for more information and the eligibility criteria.

Requests for incentives must be made in writing to the Assistant City Manager and be accompanied by appropriate supporting materials.

- Please refer to the Escondido Zoning Code Article 69, Sections 33-1450 through 33-1457, for the complete description of requirements and incentives

<http://www.qcode.us/codes/escondido/view.php?topic=33-69&showAll=1&frames=on>

For the complete Business Enhancement Zone Policy described in Resolution 2006-56, Exhibit "A", please see in the following link:

<http://www.escondido.org/Data/Sites/1/media/pdfs/Business/BusinessEnhancementZone.pdf>

Economic Incentive Fund and Incentive Policy (brief description)

Purpose: The City Council has established an Economic Incentive Fund that is utilized to offset development and connection fee reductions granted to eligible projects.

The City Council Economic Development Subcommittee and the City Council may grant fee reduction incentives as follows.

Policy:

1. Granting of fee reductions of up to 25% of the project's connection and development fees with a \$25,000 maximum cap.
 - Fee reductions are backfilled from the City Council Economic Incentive Fund.
 - Incentive does not apply to high-demand service users.
 - Pass-thru fees to other agencies and costs involving processing, inspection and/or construction costs to the City of Escondido will not be eligible for fee incentive reductions. The Public Art Fee will not be reduced.
2. Ability to request fast-track processing.

Additional Incentives Policy

1. Granting of fee reductions of up to 50% of the project's connection and development fees with a \$50,000 maximum cap.
 - Up to 50% of the project's connection and development fees can be requested to be reduced for businesses that provide exemplary financial or job benefits to the City.
 - Fee reductions are backfilled from the City Council Economic Incentive Fund.
 - Incentive does not apply to high-demand service users.
 - Pass-thru fees to other agencies and costs involving processing, inspection and/or construction costs to the City of Escondido will not be eligible for fee incentive reductions. The Public Art Fee will not be reduced.
2. Assignment of a fast track interdepartmental City staff project processing and permitting team.

FEE DEFERRAL

On June 13, 2012, City Council Approved Resolution 2012-103, which amends the existing fee deferral program for commercial and industrial projects, to include residential development with 5 or more units. Please contact Building Division staff for further information regarding the process.

FEE INCENTIVES

NONPROFIT ORGANIZATIONS (Per City Council Resolution 2008-21(R) October 22, 2008)

The City of Escondido recognizes the importance of community based service organizations. Qualified organizations will receive a 50% reduction in connection, development and art fees with a maximum total reduction in fees not to exceed \$10,000. Where a property is eligible for multiple fee credits, the credit generating the greater amount shall be used. See page 36.

INCENTIVES FOR INCREASED ENERGY EFFICIENCIES

On Sept. 19, 2001 City Council approved Resolution No. 2001-209 which provides that commercial and residential projects can receive incentives of expedited processing and reduced fees for energy efficiencies above current Title 24. See page 37.

NONRESIDENTIAL BUILDING ADDITIONS

Per City Council action on November 21, 2008, expansions in floor area of existing nonresidential buildings will be required to pay development fees on the expanded area:

- Wastewater Connection Fee
- SDCWA Capacity Charge
- Drainage Facilities Fee
- Water Connection Fee (if increase in meter size)
- Traffic Fee
- Public Facility Fee
- Art Fee

HISTORICAL BUILDINGS

On June 17, 1992, in an effort to encourage historic preservation, the City Council approved Resolution No. 92-266 adopting an incentives program for qualified preservation projects.

Numerous incentives are offered, including fee reductions.

For further information, please contact the Planning Division at (760) 839-4671.

CHANGES IN USE IN EXISTING BUILDINGS (Council Agenda Item 4/22/1992)

To encourage revitalization efforts for our existing building stock, tenant improvement permits, such as restaurants, will not be charged wastewater, water, and/or traffic fees, unless the project requires an increased water meter, or sewer line size, or adds significant parking. This policy does not apply to intensive uses such as Laundromats, car washes, breweries, etc., or to the first use in new buildings. Buildings in which the previous use was abandoned for 10 years or more are subject to development fees. (See Fee Example #9, page 29.)

SECOND DWELLING UNITS

In an effort to provide affordable housing in areas where adequate public facilities and services are available, and impacts upon the residential neighborhoods directly affected would be minimal, the City Council adopted Ordinance No. 92-42 on November 4, 1992.

The ordinance added Article 70 to the Escondido Zoning Code which establishes standards for second dwelling units.

These units will be considered as room additions for Building Permit fees and will not be charged wastewater, water, traffic, public facility, drainage, and park fees. EMC Section 33-140.

One limitation on these units is that the owner of the property must reside on the parcel on which the unit is located. For further information on Article 70, please contact the Planning Division at (760) 839-4671.

FEE INCENTIVES

PERMIT PROCESSING FEE INCENTIVES – TARGETED COMMERCIAL AREAS

To encourage improvement and enhancement of existing businesses, the processing and permit fees shown below will be waived. Targeted areas are South Escondido Boulevard, East Valley Parkway and the Downtown Revitalization Area (see map on page 33).

- Minor Plot Plan Review – \$1,025
- Project Plan Review – up to \$200
- Landscape Plan Check – up to \$1040
- Sign Permit – \$78
- Facade Improvements – up to \$200
- Design Review Fee – \$450
- Encroachment Permit – \$100
- Building Sign Permit – up to \$50
- Building Awning Permit – up to \$100

Criteria for incentive approval:

- Cumulative fee incentives for any single business shall not exceed \$500
- Fee waivers shall involve exterior (street visible) improvements only
- Waivers for new construction shall be limited to additions to existing businesses

For further information, contact the Planning Division (760) 839-4671.

FEE CREDITS

BUILDING DEMOLITIONS & ABANDONED USES

On October 22, 2008, the City Council modified City policy regarding fee credits for demolished buildings and buildings with abandoned uses. This action established a 10-year time limit on the use of fee credits. The time limit shall not apply to single-family dwellings demolished due to natural disaster.

The fee credits have the following limitations:

- Satisfactory documentation must be presented on the existence of the previous building;
- Credits are applied to the fees for new projects on the same property (no monetary refunds are given);
- Credit applies only to the property on which the demolitions occurred;
- Credit cannot be transferred elsewhere.
- Where a property is eligible for multiple fee credits, the credit generating the greater amount shall be used.

Fee credits apply to the following fees:

- Water Connection Fee (if on City water)
- Wastewater Connection Fee (if on City sewer)
- SDCWA Capacity Charge (if on City water)
- Public Facility Fee
- Art Fee
- Traffic Fee Local portion only (see below)
- Park Fee
- Region of Influence Infrastructure Deposit
- Drainage Facilities Fee

Credits for Traffic Fees for a demolished residential use applied to a commercial use will be 25% of the fees shown in this guide, since commercial traffic fee rates are based on 25% of the residential rates.

AGRICULTURAL WATER METERS

On October 22, 2008, the City Council modified City codes to allow fee credits for agricultural water meters taken out of service.

Fee credits apply as follows:

- Ten-year time limit, and other limitations as listed under Building Demolitions
- Given to owner of the subdivision at the time of Final Map recordation
- Applies to the Water Connection Fee at the time of meter removal or last service, and SDCWA Capacity Charge as allowed per the agency
- Will be divided among the new lot(s) created

SEPTIC TANK AND WELLS – Contact the County Health Department

DEMOLITION PERMITS - may be issued to the owner, licensed demolition contractor, or general contractor who has contract to replace the building on the property. Permit fee is \$30 per permit. (No plumbing permit required.) Must have San Diego Gas & Electric service removal information slip before issuance. See Demolition Permit Guideline #14.

The recycling of Construction and Demolition Debris to the maximum extent possible for all projects is highly encouraged.

CHANGE OF OCCUPANCY INSPECTION - provide plot plan and indicate intended new use - \$86.00 fee (Property owner's request.)

PLAN CHECK AND BUILDING PERMIT FEES/VALUATION MULTIPLIERS - Plan Check and Building Permit fees are based on the value of the proposed work. The Escondido Municipal Code requires that the Building Official make the determination of the value. It also requires that the value be the total value of all the construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air-conditioning, elevators, fire extinguishing systems and other permanent equipment.

Building Valuation Multipliers are updated periodically and may be adopted by each jurisdiction in San Diego County.

Actual construction cost estimates may be used in lieu of the multipliers only for additions and tenant improvements.

RESEARCH FEES – To cover City costs related to the research of records and documents- \$86.00hr.

SHELL BUILDING: A shell building is defined as a building for which HVAC, lighting, suspended ceilings, plumbing and electrical systems, partition layouts and interior finish are not shown on the plans and for which separate tenant improvement plans will be submitted for plan check at a later date showing these items. Warehouses and industrial buildings shall not be considered shell buildings. The valuation for shell buildings shall be taken as 80 percent of the valuation for the completed building.

*Add 0.5% to the total cost for each story over three.

**For subdivisions with 10 or more single-family dwellings which have building permit issuances in groups of 10 or more, the production unit building permit fees will be decreased by 10%. (Resolution

SCHOOL FEES

November 2006

Government Code 65995 and Education Code 17620 permit School Districts to collect developer fees for residential buildings and commercial or industrial buildings. School fee payment forms are available at the City of Escondido Building Division. These forms must be signed by Building Division staff prior to payment of fees at the School District office. Validated receipts must be returned to the Building Division prior to issuance of Building Permit.

ESCONDIDO UNION SCHOOL DISTRICT
AND
ESCONDIDO UNION HIGH SCHOOL DISTRICT

For further information as to the amount of fees and school of residence for your project, please contact The Carilyn Gilbert Education Center, Facilities Department, 2310 Aldergrove Ave, Escondido, CA 92029, (760) 432-2382.

- Form of payment of these fees will be by cashier's check, official bank check or cash. These are the only forms of payment accepted. (Personal or business checks are not acceptable and cash must be in the exact amount. Change is not available at the education center office). Suggest applicant contact the Education Center for the most current information.
- Please contact the Education Center for Hours of collection.

ART IN PUBLIC PLACES FEE (PUBLIC ART)

Please refer to Page A1 for Important Fee information

All development projects, both residential and nonresidential, are subject to the payment of the Art Fee at Building Permit issuance.

In lieu of paying the fee, applicants are encouraged to place public art on their property following the Public Art Commission guidelines. Applicants interested in this approach should contact the Public Art Consultant, Susan Pollack, Community Services Department, at (760) 839-4331 in the early design stages of their projects.

The Art Fee is currently \$0.30/sq. ft. of building area, with the following exceptions:

1. Tenant improvements with no added building area.
2. The first 2000 sq. ft. of any structure. This exception shall not apply on an individual basis to structures which are part of a larger integrated complex (commercial, industrial and multi-family residential), but shall apply only to the first 2000 sq. ft. of the complex.
3. For a new SFD, the 2000 sq. ft. exemption shall apply to each detached structure.
4. Residential additions, patio covers, gazebos, etc. (except for work which results in an additional dwelling unit)

For additions to existing buildings, the following shall apply:

- If the existing building is 2,000 sq. ft. or greater, all of the new addition is subject to the fee.
- If the existing building is less than 2,000 sq. ft., add the area of the existing to the area of the new addition. That portion of the total over 2,000 sq. ft. is subject to the fee.

If this were part of an existing complex of buildings (commercial, industrial and multi-family residential) and one of the buildings was 2,000 sq. ft. or larger, exception #2 above would be utilized and the addition would be subject to fees for the full square footage.

For existing multi-building (commercial, industrial and multi-family residential) complexes in which a new building is being added, exception #2 would again be utilized with the 2,000 sq. ft. being applied to one of the existing buildings.

San Diego County Water Authority

CAPACITY CHARGE

WHO

The San Diego County Water Authority (the "Authority") was organized on June 9, 1944 for the primary purpose of importing water from the Colorado River to San Diego to augment local water supplies. The Water Authority's service area encompasses 920,472 acres (1,438 square miles). It consists of six cities, 16 special districts, one federal agency (Camp Pendleton Military Reservation), and a member of the County of San Diego Board of Supervisors also serves as a representative to the Water Authority Board of Directors. It is governed by a 34-member Water Authority Board of Directors representing the member agencies. The primary function of the Water Authority is to develop, store and transport water for use by its member agencies for delivery to each residence and business. The Water Authority supplies up to 90% of the water used within the County.

WHAT

On May 26, 2005, the Board of Directors of the Water Authority adopted Ordinance No. 2005-03. This ordinance fixes Capacity Charges on all meters purchased on or after **August 1, 2005**, within the boundaries of the Water Authority.

The System Capacity Charge for a meter size of one (1) inch or greater shall be the basic charge of \$3,985 multiplied by a **Factor** that is based upon additional meter capacity:

The **System Capacity Charge** is the cost for the conveyance and storage facilities necessary to operate the delivery system.

The **Water Treatment Capacity Charge** is the cost for the connection to the 50-mgd (million gallons per day) regional water treatment facility. The Water Treatment Capacity Charge is an additional charge of \$153 for each new meter of a size less than one inch and a corresponding increase for larger meters. The **Water Treatment Capacity Charge excludes customers from the City of Escondido**, the member agency whose jurisdiction cannot be serviced by the 50-mgd regional water treatment facility.

The member agency shall determine the size of the water meter to serve any property within its jurisdiction.

In the event an agency calculates the water demand by the Equivalent Dwelling Unit ("EDU") method, the Water Authority's System Capacity Charge and Water Treatment Capacity Charge will be collected based on the size of meter actually installed to meet flow demand.

WHY

The assessment of the System Capacity Charge and Water Treatment Capacity Charge on new development is a part of the overall Long Range Financing Plan to fund the Capital Improvement Program. The other major revenue sources are water rates, infrastructure access charges, property taxes and the water standby availability charges.

The System Capacity Charge and Water Treatment Capacity Charge represent a reasonable basis for recovery of costs associated with providing service to new connections in the Water Authority's service area through each member agency. Each member agency's rules and regulations governing the establishment of new or expanded services within its service area will be applicable to the collection of the System Capacity Charge and Water Treatment Capacity Charge for the Water Authority.

WHERE

The Water Authority's System Capacity Charge and Water Treatment Capacity Charge are to be collected from new or expanded water service on all lands within the boundaries of the Water Authority to which water is made available by the Water Authority.

The implementation of the System Capacity Charge and Water Treatment Capacity Charge is discussed in detail in Ordinance No. 2005-03, adopted on May 26, 2005. A copy of this document may be obtained from your water agency or from the San Diego County Water Authority, 4677 Overland Avenue, San Diego, CA 92123.

WHEN

Ordinance 90-2 was adopted by the Water Authority's Board of Directors with an effective date of October 1, 1990, with the provision to periodically review the rate based upon changes in the Water Authority's Capital Improvement Program. All meters for new or expanded service on or after that date are subject to Capacity Charges. The charges are collected by member agencies at the time they process and collect charges imposed by their rules and regulations for new or expanded water service. Rate adjustment, which established the current rates, was approved by the Water Authority's Board of Directors on November 30, 2006, with an effective date of January 1, 2007. Rates will increase on January 1, 2007.

City of Escondido Nonprofit Organization Fee Reduction Policy

The City of Escondido recognizes the importance of community based service organizations and the contributions that they make to the quality of life for its citizens. In support of the services provided by these organizations, reductions in fees associated with building permits will be granted as follows:

Qualifications:

- Must be a charitable, public benefit or religious organization. Mutual benefit organizations benefit their members and would not qualify.
- Promotes the common good and general welfare of the people of Escondido as a whole. Services provided contribute to the quality of life of the citizens of Escondido.
- Has an established history of City of Escondido community based service activities and/or will provide City of Escondido based services.
- Characteristics of community based organizations
 - Worship, spiritual growth & development
 - Day care (nonprofit)
 - Senior care (nonprofit)
 - Private schools (elementary & secondary)
 - Social service providers such as Boy Scouts, Girl Scouts, YMCA, Boys & Girls Club, Community Clinics, Family social services

Application:

- Submit a summary of all qualifications as noted above, to the Building Official, with a copy of IRS status as a 501 (c) 3 Non-profit organization.

Fee Reductions:

- For qualified organizations, a 50% reduction, with a maximum total allowable reduction not to exceed \$10,000, as applicable, will be given for connection fees (wastewater and water), development fees (public facility, Local traffic, park, drainage facility) and the art fee.
- Reductions of staff hard costs or pass-through fees will not be given. Examples include, but are not limited to, all processing fees, permit fees, state seismic fee, microfilming fee, San Diego County Water Authority Capacity Charge, etc.
- Where a property is eligible for multiple fee credits, the credit generating the greater amount shall be used.

For an estimate of project fees, please contact Building Division staff. Please provide a description of the proposed project, location, building areas & uses, etc.

Authority: City Council Resolution 2008-21(R) October 22, 2008

City of Escondido Community Energy Partnership Program

Incentives for Increased Energy Efficiencies

On September 19, 2001 the Escondido City Council approved Resolution No. 2001-209 which provides incentives for projects with increased energy efficiencies that are above current State Title 24. The incentives are:

- Expedited processing
- Reduced Plan Check and/or Permit fees

Community Energy Partnership Program (CEPP) projects requesting incentives from the City of Escondido shall submit information detailing how they meet the required criteria.

Building Division staff must be notified either prior to or at submittal for building permits if a project is requesting these incentives.

Once it is determined that the criteria are met, consideration may be given at the discretion of the Planning and Building Department/Building Division. No City Council action is required for individual projects.

For Commercial and Residential Projects:

Project owners or sponsors shall submit to the City building energy performance (Title 24) calculations completed and certified by a Certified Energy Analyst* using an acceptable computer model such as Energy Pro, MICROPAS, EQuest, DOE-2, Power DOE, HAP 3.22 etc. and present the summary data to the City with plans.

For Commercial Projects:

Projects shall exceed current California Title 24 Energy Standards by a minimum of 10%. Incentives are expedited processing and elimination of the Plan Check Fee Energy Surcharge.

For Residential Projects:

Multi-Family Projects shall exceed current California Title 24 (Residential) by a minimum of 10%. Incentives are expedited processing and elimination of the Plan Check Fee Energy Surcharge.

Single Family Homes must be ENERGY STAR® compliant. Incentives are expedited processing and elimination of Plan Check and Building Permit Fee Energy Surcharges. Project developers must provide evidence that the homes built have been issued a Home Energy Ratings (HERS)** Report and Certificate meeting these requirements, prior to final inspection approval.

*The Certified Energy Analyst Program is managed by the California Association of Building Energy Consultants (CABEC), a private, nonprofit organization that was founded in 1986 to foster the professional development of energy analysts who prepare compliance documentation for the California Code of Regulations, Title 24, Part 6. The Certified Energy Analyst (CEA) Program is officially recognized by the California Energy Commission (CEA) as the professional standard for energy compliance.

**The Home Energy Rating System (HERS) Program was established by the California Energy Commission (CEC) as required by Public Resources Code Section 25942 to establish regulations to certify home energy rating services in California. These services include field verification and diagnostic testing available through Commission-certified providers and their raters. The goal of the program is to provide reliable information to differentiate the energy efficiency levels among California homes and to guide investment in cost-effective home energy efficiency measures. More information on the Home Energy Rating System (HERS) can be found at <http://www.energy.ca.gov/HERS/index.html>. More information on home energy rating and certification services can be found at <http://www.cheers.org>.
